Let the New Moon in Taurus Energies Guide You
Thru Meditation!

The belief that all people are one and we are all part of the
“World Picture”

Now is the time of fresh new energy for new goals. This is an excellent time to make a new start. You need to relax, get your mind still. Our quiet time will be in our church sanctuary, where it is peaceful and healing. This is an invitation to relax and call on the energy of a waxing New Moon. I invite you to come to our New Moon Meditation and take time to still your busy mind. Come, get centered and refreshed. Let us come together for the meditation that is beneficial for our outlook on life and our well being. New Moon Meditation brings peace to our very core, so that we can benefit the world by our inner peace that radiates outward. The New Moon in Taurus brings the celebration of exciting new energy! Come and enjoy the peace of the Sanctuary and the hope of new beginnings.
